

Kosmos Energy Ltd - 1st Quarter Results

May 10, 2021

RNS Number : 9942X Kosmos Energy Limited 10 May 2021

NEWS RELEASE

KOSMOS ENERGY ANNOUNCES FIRST QUARTER 2021 RESULTS

DALLAS--(BUSINESS WIRE)-May 10, 2021-- Kosmos Energy Ltd. ("Kosmos" or the "Company") (NYSE: KOS) announced today its financial and operating results for the first quarter of 2021. For the quarter, the Company generated a net loss of \$91 million, or \$0.22 per diluted share. When adjusted for certain items that impact the comparability of results, the Company generated an adjusted net loss⁽¹⁾ of \$33 million, or \$0.08 per diluted share for the first quarter of 2021.

FIRST QUARTER 2021 HIGHLIGHTS

- Net Production⁽²⁾ 53,100 barrels of oil equivalent per day (boepd) with sales of 36,500 boepd, resulting in a material net underlift position of approximately 1.3 million barrels of oil
- Phase One of the Greater Tortue LNG project ~58% complete at quarter end
- Completion of an upsized \$450 million offering of senior notes due 2028
- Post-quarter end, successful reserve-based lending (RBL) redetermination and extension
- Revenues \$176 million, or \$53.66 per boe
- Production expense \$46 million, or \$13.91 per boe
- General and administrative expenses \$22 million, \$14 million cash expense and \$8 million non-cash
- Capital expenditures:
 - \$44 million Base Business capital expenditures
 - \$73 million Mauritania and Senegal
- Net cash used in operating activities \$47 million

Commenting on the Company's first quarter 2021 performance, Chairman and Chief Executive Officer Andrew G. Inglis said: "This month marks the tenth anniversary of Kosmos' listing on the New York Stock Exchange. In those ten years, Kosmos has evolved from a frontier explorer to a full-cycle E&P with a diverse reserve base

that has increased nearly seven-fold, building the platform for continued success over the next ten years. In the first decade of the company's history, we maintained a strong focus on corporate responsibility, leading on transparency and positioning the business to deliver value to our stakeholders through the energy transition.

2021 is off to a strong start with momentum building across the business. We have begun infill drilling activities in Ghana and the Gulf of Mexico, will soon begin drilling in Equatorial Guinea, and are on track to deliver our production and cash flow targets for the year. Progress also continues on the Greater Tortue Project in Mauritania and Senegal, with Phase one 58% complete at the end of the first quarter. We have taken important steps to create a more permanent capital structure with the bond offering and the recently-completed RBL extension, which increased liquidity and cleared all material near-term debt maturities."

FINANCIAL UPDATE

In the first quarter of 2021, 1.5 cargos were lifted from a forecast 12.5 cargos for the full year 2021. As a result of the timing mismatch between production and the lifting of cargos, there was a material underlift of approximately 1.3 million barrels of oil in the first quarter.

In March 2021, Kosmos successfully closed a \$450 million offering of senior notes due 2028. The net proceeds from the offering were used to partially pay down the RBL facility and revolving credit facility as well as for working capital purposes.

In May 2021, Kosmos successfully completed an amendment and restatement of the RBL facility in conjunction with the spring redetermination. The amendment reduced the facility size to \$1.25 billion and extended the facility by two years, with a final maturity of March 2027. The borrowing base was finalized, with a more conservative price deck, at \$1.24 billion with \$1.0 billion currently outstanding.

The base business net capital expenditure for the first quarter of 2021 was approximately \$44 million, in-line with Company guidance. Net capital expenditures related to Mauritania and Senegal in the first quarter were \$73 million.

Kosmos exited the first quarter of 2021 with approximately \$2.2 billion of net debt⁽¹⁾ and available liquidity of around \$0.8 billion. The increase in net debt in the quarter was driven by the material underlift, Mauritania and Senegal capital expenditures and the National Oil Company loan payments, as well as working capital. Kosmos base business free cash flow guidance for 2021 remains unchanged.

OPERATIONAL UPDATE

Production

Total net production in the first quarter of 2021 averaged approximately $53,100 \text{ boepd}^{(2)}$, in line with prior guidance.

Ghana

Production in Ghana averaged approximately 22,400 barrels of oil per day (bopd) net in the first quarter of 2021. As forecasted, Kosmos lifted one cargo from Ghana during the first quarter.

At Jubilee, production averaged approximately 70,400 bopd gross during the quarter. Kosmos and its partners continue to focus on higher reliability in Ghana as demonstrated by floating production, storage and offloading (FPSO) vessel uptime at Jubilee of around 98% in the first quarter and consistent water injection at the highest levels since 2012. Gas offtake to the government of Ghana of around 110 million standard cubic feet per day in the quarter is almost double the level seen in 2019. At TEN, production averaged approximately 38,800 bopd gross for the first quarter with FPSO uptime of 99%.

In early 2021, the Jubilee Catenary Anchor Leg Mooring (CALM) buoy was commissioned with the first

offloading taking place in February. The CALM buoy will replace the need for shuttle tankers and is expected to reduce operating expenses going forward.

Infill drilling has resumed in the second quarter with drilling planned for three wells on Jubilee and one on TEN in 2021. A long-term rig contract has been entered into for the Maersk Venturer, which arrived on location early in the second quarter. A Jubilee producer well has finished drilling and the rig has now moved to drill a water injector well at Jubilee, after which we expect to complete both wells. The expected impact of these two wells is to increase production by 15,000-20,000 barrels of oil per day gross.

U.S. Gulf of Mexico

Production in the U.S. Gulf of Mexico averaged approximately 20,500 boepd net (81% oil) during the first quarter.

In late-February, the Kodiak-2 well was brought back online after successful remediation of the subsea infrastructure issue identified in the fourth quarter of 2020. In April, the Kodiak-3 infill well was also brought online.

After the encouraging results from the Tornado-4 water injection well last year, drilling of the Tornado-5 infill well is now planned by the operator in the second quarter and expected online in the third quarter.

In January 2021, Kosmos announced an oil discovery at the Winterfell infrastructure-led exploration (ILX) well (drilled at a Kosmos working interest 17.5%), which encountered approximately 26 meters (85 feet) of net oil pay in two intervals. During the first quarter, Kosmos worked with partners on an appraisal plan for Winterfell, which is expected to begin with a well in the third quarter. This appraisal well is expected to drill the fault block to the northwest of the discovery, which has the same seismic signature as Winterfell, with an exploration tail into a deeper horizon. The Winterfell discovery is located within tie back distance to several existing and planned host facilities.

Kosmos plans to drill a second ILX well at Zora with a 37.5% operated working interest in the third quarter. The Zora prospect is a Miocene target in the same play as nearby analogous fields such as Odd Job, Horn Mountain and Marmalard. The permits to drill the well have all been received and a rig has been contracted. The Zora prospect is located near multiple other prospects where Kosmos has built a material interest and is in close proximity to several potential host facilities, which could facilitate a low cost and lower carbon development in the event of success.

Equatorial Guinea

Production in Equatorial Guinea averaged approximately 30,200 bopd gross and 10,200 bopd net in the first quarter of 2021. As forecasted, Kosmos lifted 0.5 cargos from Equatorial Guinea during the quarter.

The Okume upgrade project is nearing completion, adding additional power, water injection and gas lift capacity necessary for further facilities de-bottlenecking and additional electrical submersible pumps (ESPs). In April, partners commenced the second phase of the planned ESP program and upgraded the G-19 flowline, which has significantly enhanced production from that well.

A rig has also been contracted for the upcoming infill drilling campaign, which is expected to arrive in country later this quarter to drill the three wells planned this year.

Mauritania & Senegal

The momentum in Kosmos' production activities in the first quarter can also be seen in the Company's development project. Phase one of the Greater Tortue Ahmeyim LNG project ended the first quarter around 58% complete with material progress across all of the major workstreams, including the FPSO, Floating LNG vessel, hub terminal (concrete breakwater) and subsea infrastructure. The partnership is targeting Phase one to be around 80% complete by year end.

Kosmos expects completion of the FPSO sale and lease-back in the second quarter of 2021 as previously communicated. The process remains on track with documentation being finalized and the government approval process well underway.

- (1) A Non-GAAP measure, see attached reconciliation of non-GAAP measure
- (2) Production means net entitlement volumes. In Ghana and Equatorial Guinea, this means those volumes net to Kosmos' working interest or participating interest and net of royalty or production sharing contract effect. In the Gulf of Mexico, this means those volumes net to Kosmos' working interest and net of royalty.

Conference Call and Webcast Information

Kosmos will host a conference call and webcast to discuss first quarter 2021 financial and operating results today at 10:00 a.m. Central time (11:00 a.m. Eastern time). The live webcast of the event can be accessed on the Investors page of Kosmos' website at http://investors.kosmosenergy.com/investor-events. The dial-in telephone number for the call is +1-877-407-3982. Callers in the United Kingdom should call 0800 756 3429. Callers outside the United States should dial 1-201-493-6780. A replay of the webcast will be available on the Investors page of Kosmos' website for approximately 90 days following the event.

About Kosmos Energy

Kosmos is a full-cycle deepwater independent oil and gas exploration and production company focused along the Atlantic Margins. Our key assets include production offshore Ghana, Equatorial Guinea and the U.S. Gulf of Mexico, as well as a world-class gas development offshore Mauritania and Senegal. We also maintain a sustainable proven basin exploration program in Equatorial Guinea, Ghana and the U.S. Gulf of Mexico. Kosmos is listed on the New York Stock Exchange and London Stock Exchange and is traded under the ticker symbol KOS. As an ethical and transparent company, Kosmos is committed to doing things the right way. The Company's Business Principles articulate our commitment to transparency, ethics, human rights, safety and the environment. Read more about this commitment in the Kosmos Sustainability Report. For additional information, visit www.kosmosenergy.com.

Non-GAAP Financial Measures

EBITDAX, Adjusted net income (loss), Adjusted net income (loss) per share, free cash flow, and net debt are supplemental non-GAAP financial measures used by management and external users of the Company's consolidated financial statements, such as industry analysts, investors, lenders and rating agencies. The Company defines EBITDAX as Net income (loss) plus (i) exploration expense, (ii) depletion, depreciation and amortization expense, (iii) equity based compensation expense, (iv) unrealized (gain) loss on commodity derivatives (realized losses are deducted and realized gains are added back), (v) (gain) loss on sale of oil and gas properties, (vi) interest (income) expense, (vii) income taxes, (viii) loss on extinguishment of debt, (ix) doubtful accounts expense and (x) similar other material items which management believes affect the comparability of operating results. The Company defines Adjusted net income (loss) as Net income (loss) adjusted for certain items that impact the comparability of results. The Company defines free cash flow as net cash provided by operating activities less Oil and gas assets, Other property, and certain other items that may affect the comparability of results. The Company defines net debt as the sum of notes outstanding issued at par and borrowings on the RBL Facility and Corporate revolver less cash and cash equivalents and restricted cash.

We believe that EBITDAX, Adjusted net income (loss), Adjusted net income (loss) per share, free cash flow, Net debt and other similar measures are useful to investors because they are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in the oil and gas sector and will provide investors with a useful tool for assessing the comparability between periods, among securities analysts, as well as company by company. EBITDAX, Adjusted net income (loss), Adjusted net income (loss) per share, free cash flow, and net debt as presented by us may not be comparable to similarly titled measures of other companies.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, included in this press release that address activities, events or developments that Kosmos expects, believes or anticipates will or may occur in the future are forward-looking statements. Kosmos' estimates and forward-looking statements are mainly based on its current expectations and estimates of future events and trends, which affect or may affect its businesses and operations. Although Kosmos believes that these estimates and forward-looking statements are based upon reasonable assumptions, they are subject to several risks and uncertainties and are made in light of information currently available to Kosmos. When used in this press release, the words "anticipate," "believe," "intend," "expect," "plan," "will" or other similar words are intended to identify forward-looking statements. Such statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of Kosmos (including, but not limited to, the impact of the COVID-19 pandemic), which may cause actual results to differ materially from those implied or expressed by the forward-looking statements. Further information on such assumptions, risks and uncertainties is available in Kosmos' Securities and Exchange Commission ("SEC") filings. Kosmos undertakes no obligation and does not intend to update or correct these forward-looking statements to reflect events or circumstances occurring after the date of this press release, except as required by applicable law. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. All forward-looking statements are qualified in their entirety by this cautionary statement.
